Business Analyst / Product owner

Professional experiences

Functional Analyst

SPF Finances | Aug. 2021 –

Analyst for the Tax and Collection IT support team that provides new software to internal agents. I am responsible of ensuring that the needs of an SPF Finances entity are properly taken into account in the design of a large-scale project.

Product Owner biotech solutions

Idealis Consulting | Oct. 2019 – Apr. 2021

Creation of a vertical solution on the Odoo ERP for the biotechnology sector. In an agile environment, my main responsibilities were:

- Capturing requirements, writing, and prioritizing development tasks
- Following the developers' work and testing it using unit-tests and test-plans
- Validating internally and with the client
- Training the client through documentation, workshops and videos

Scrum Master

Le Moulin d'André | Sep. 2018 – Dec. 2018

Scrum master of an e-commerce project. In a team of 6 people, we made an e-commerce website for a baker with PrestaShop. I had to monitor the project, help the team overcome the problems that come our way and make sure that the project was going to be successful.

SEA consultant

Red-Cross of Belgium | Feb. 2018– May 2018

Administrator & Product lead

Mini-enterprise Willy Wallet | Sep. 2015 – Mai 2016

Education

Master, Business Analyst

ICHEC/ECAM | 2019 - 2021
